

2015研發替代役招募

Competence:

A degree in Computer Science, Information Engineering, Networking and Multimedia, or any related discipline. A Masters is a plus.

Job:

1. Frontend Engineer: Web App development.
2. iOS/Android App Developer: Native App development.
3. Open Source Developer: Linux, Apache, My SQL, PHP, working experience with open source development tools.
4. Big Data Analyst: Big data analytic and research.

Plus:

- A high degree of self-motivation and the ability to work alone, managing your own work and setting sensible priorities.
- You are very good at English, both verbal and written.
- You're a great team player, but also able to work on projects autonomously.
- You put your eye on technology news but also like business.
- You have more to say than your peers and you love connecting with people.
